Who We Are ?

Nyn Hanger, active with the manufacturing of the wooden hanger and hanger equipment in the textile industry. It is the market leader with 7500m2 reaching the closed area and approximately 100 employees in Europe. The given importance to customer satisfaction; products, human resources, processes and by continuously improving the quality of the environment is to maintain this leading position.

Today Nyn, has approved its quality with certificate "ISO 9001:2008 (57219) and by all of the work that customers "strategic partner" is defined as. Turkey as well; it has established sales in Germany,

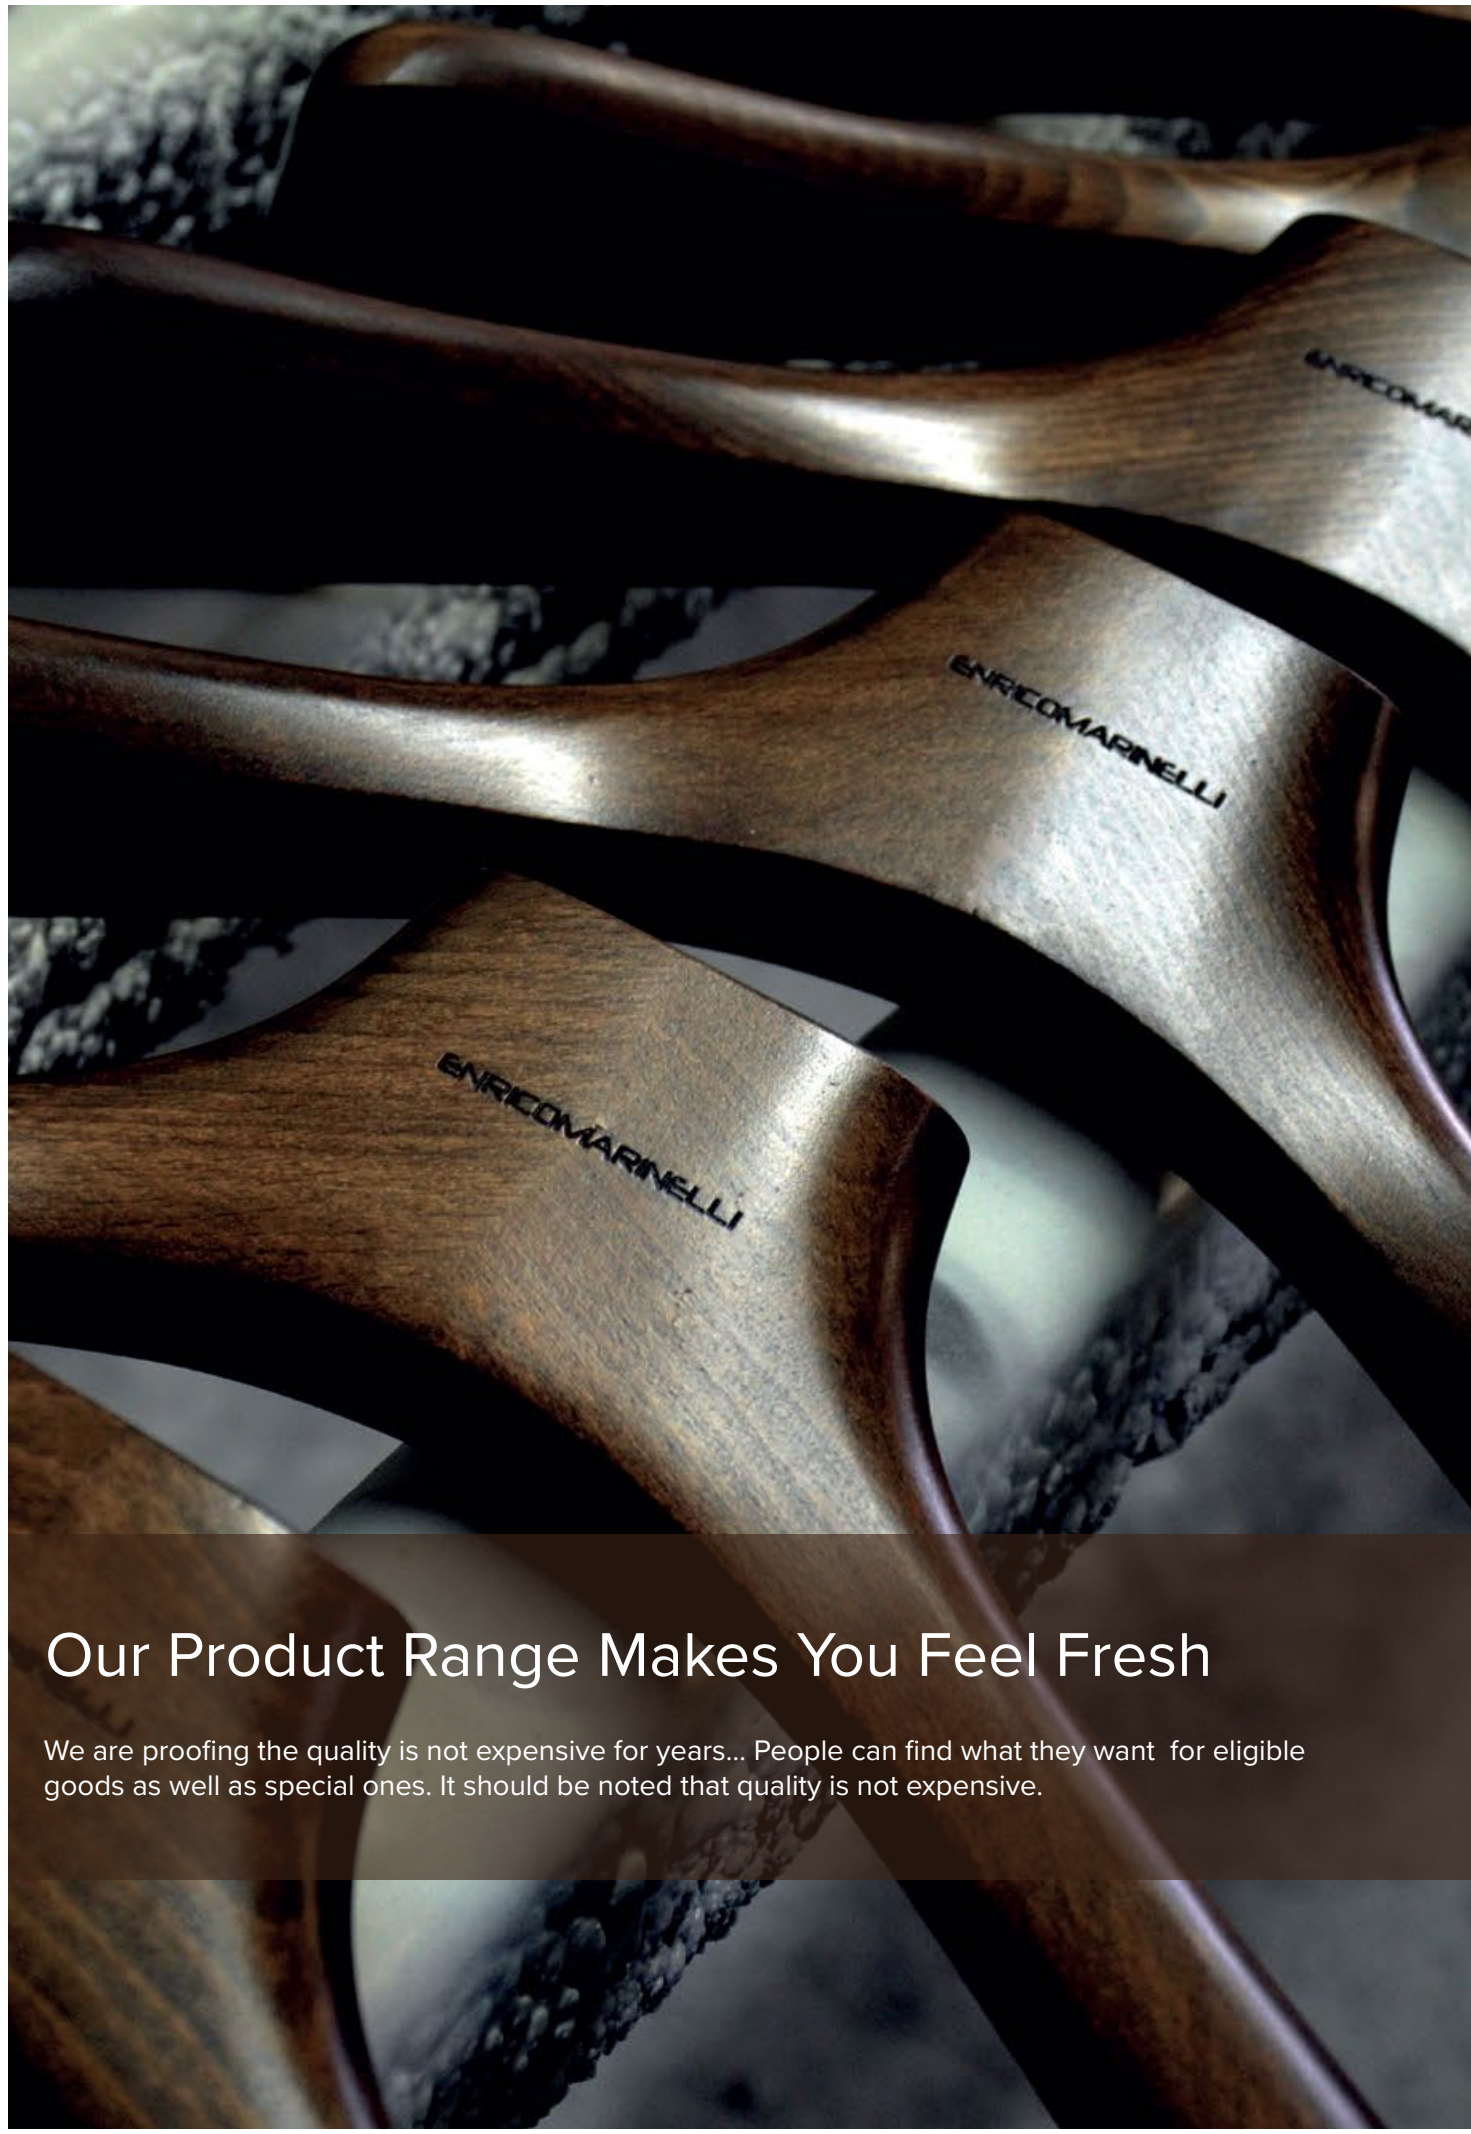

Vision

We Are proud to be the biggest wooden hanger company of Europe. In this point, where we have came together by combining our wide range of products with our new and open product range. In addition to all these efforts, it is our priority to provide the best service and the most appropriate service by talking into consideration the interests of our customers.

Mission

Wooden hangers, which is the biggest product of the textile market, are able to produce the customer specially with all the details and to win the satisfaction of our customers without sacrificing quality and service. we saw that the textile industry was very open and easily adaptable to the innovations, and we started to produce special exhibition hanger for our collections by concentrating on our first target, special designers. In this way, we proved that other companies could have their own special hangers in time, and we gave a new perspective to the market and contributed to our

Our Product Range Makes You Feel Fresh

We are proofing the quality is not expensive for years... People can find what they want for eligible goods as well as special ones. It should be noted that quality is not expensive.

BASED OUR EXPERIANCE;

We Are The Company That Leads The Sector...

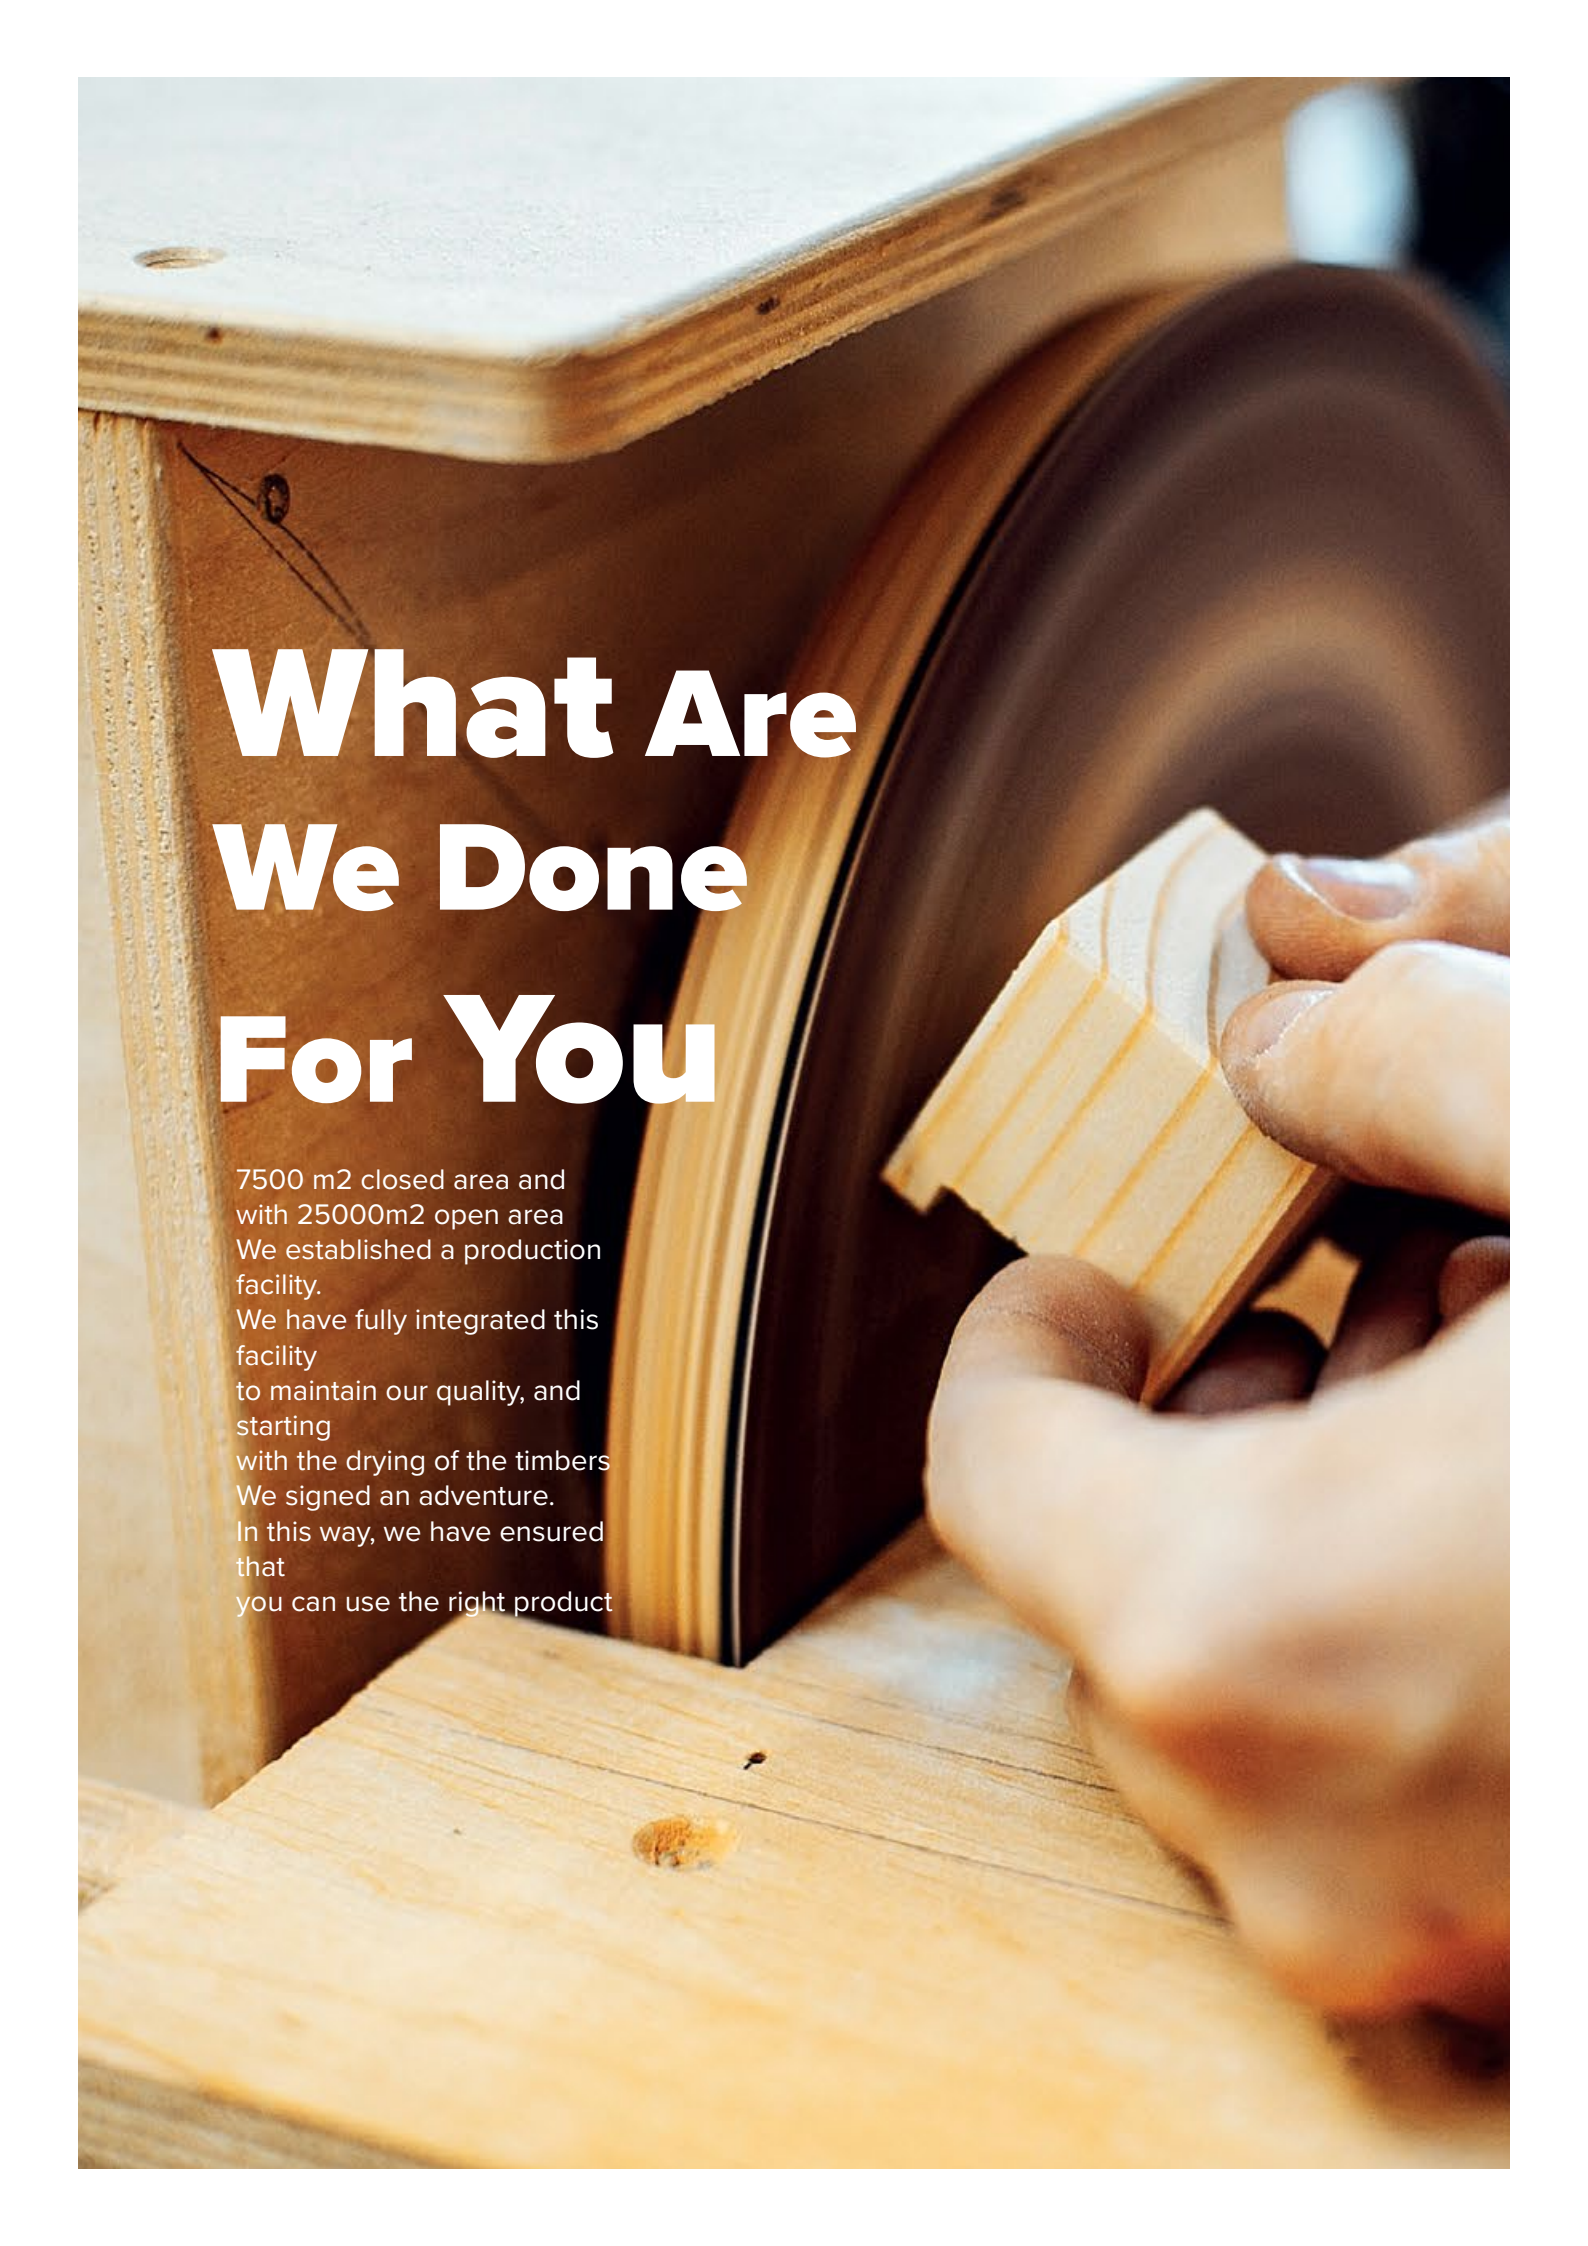

We continioun climbing the steps with the happiness of having an experience that is about to be passed on to the next generation.

Thanks to our experience, we are proud of being the company that steers the sector. This experience will never allow you to make the wrong decision.

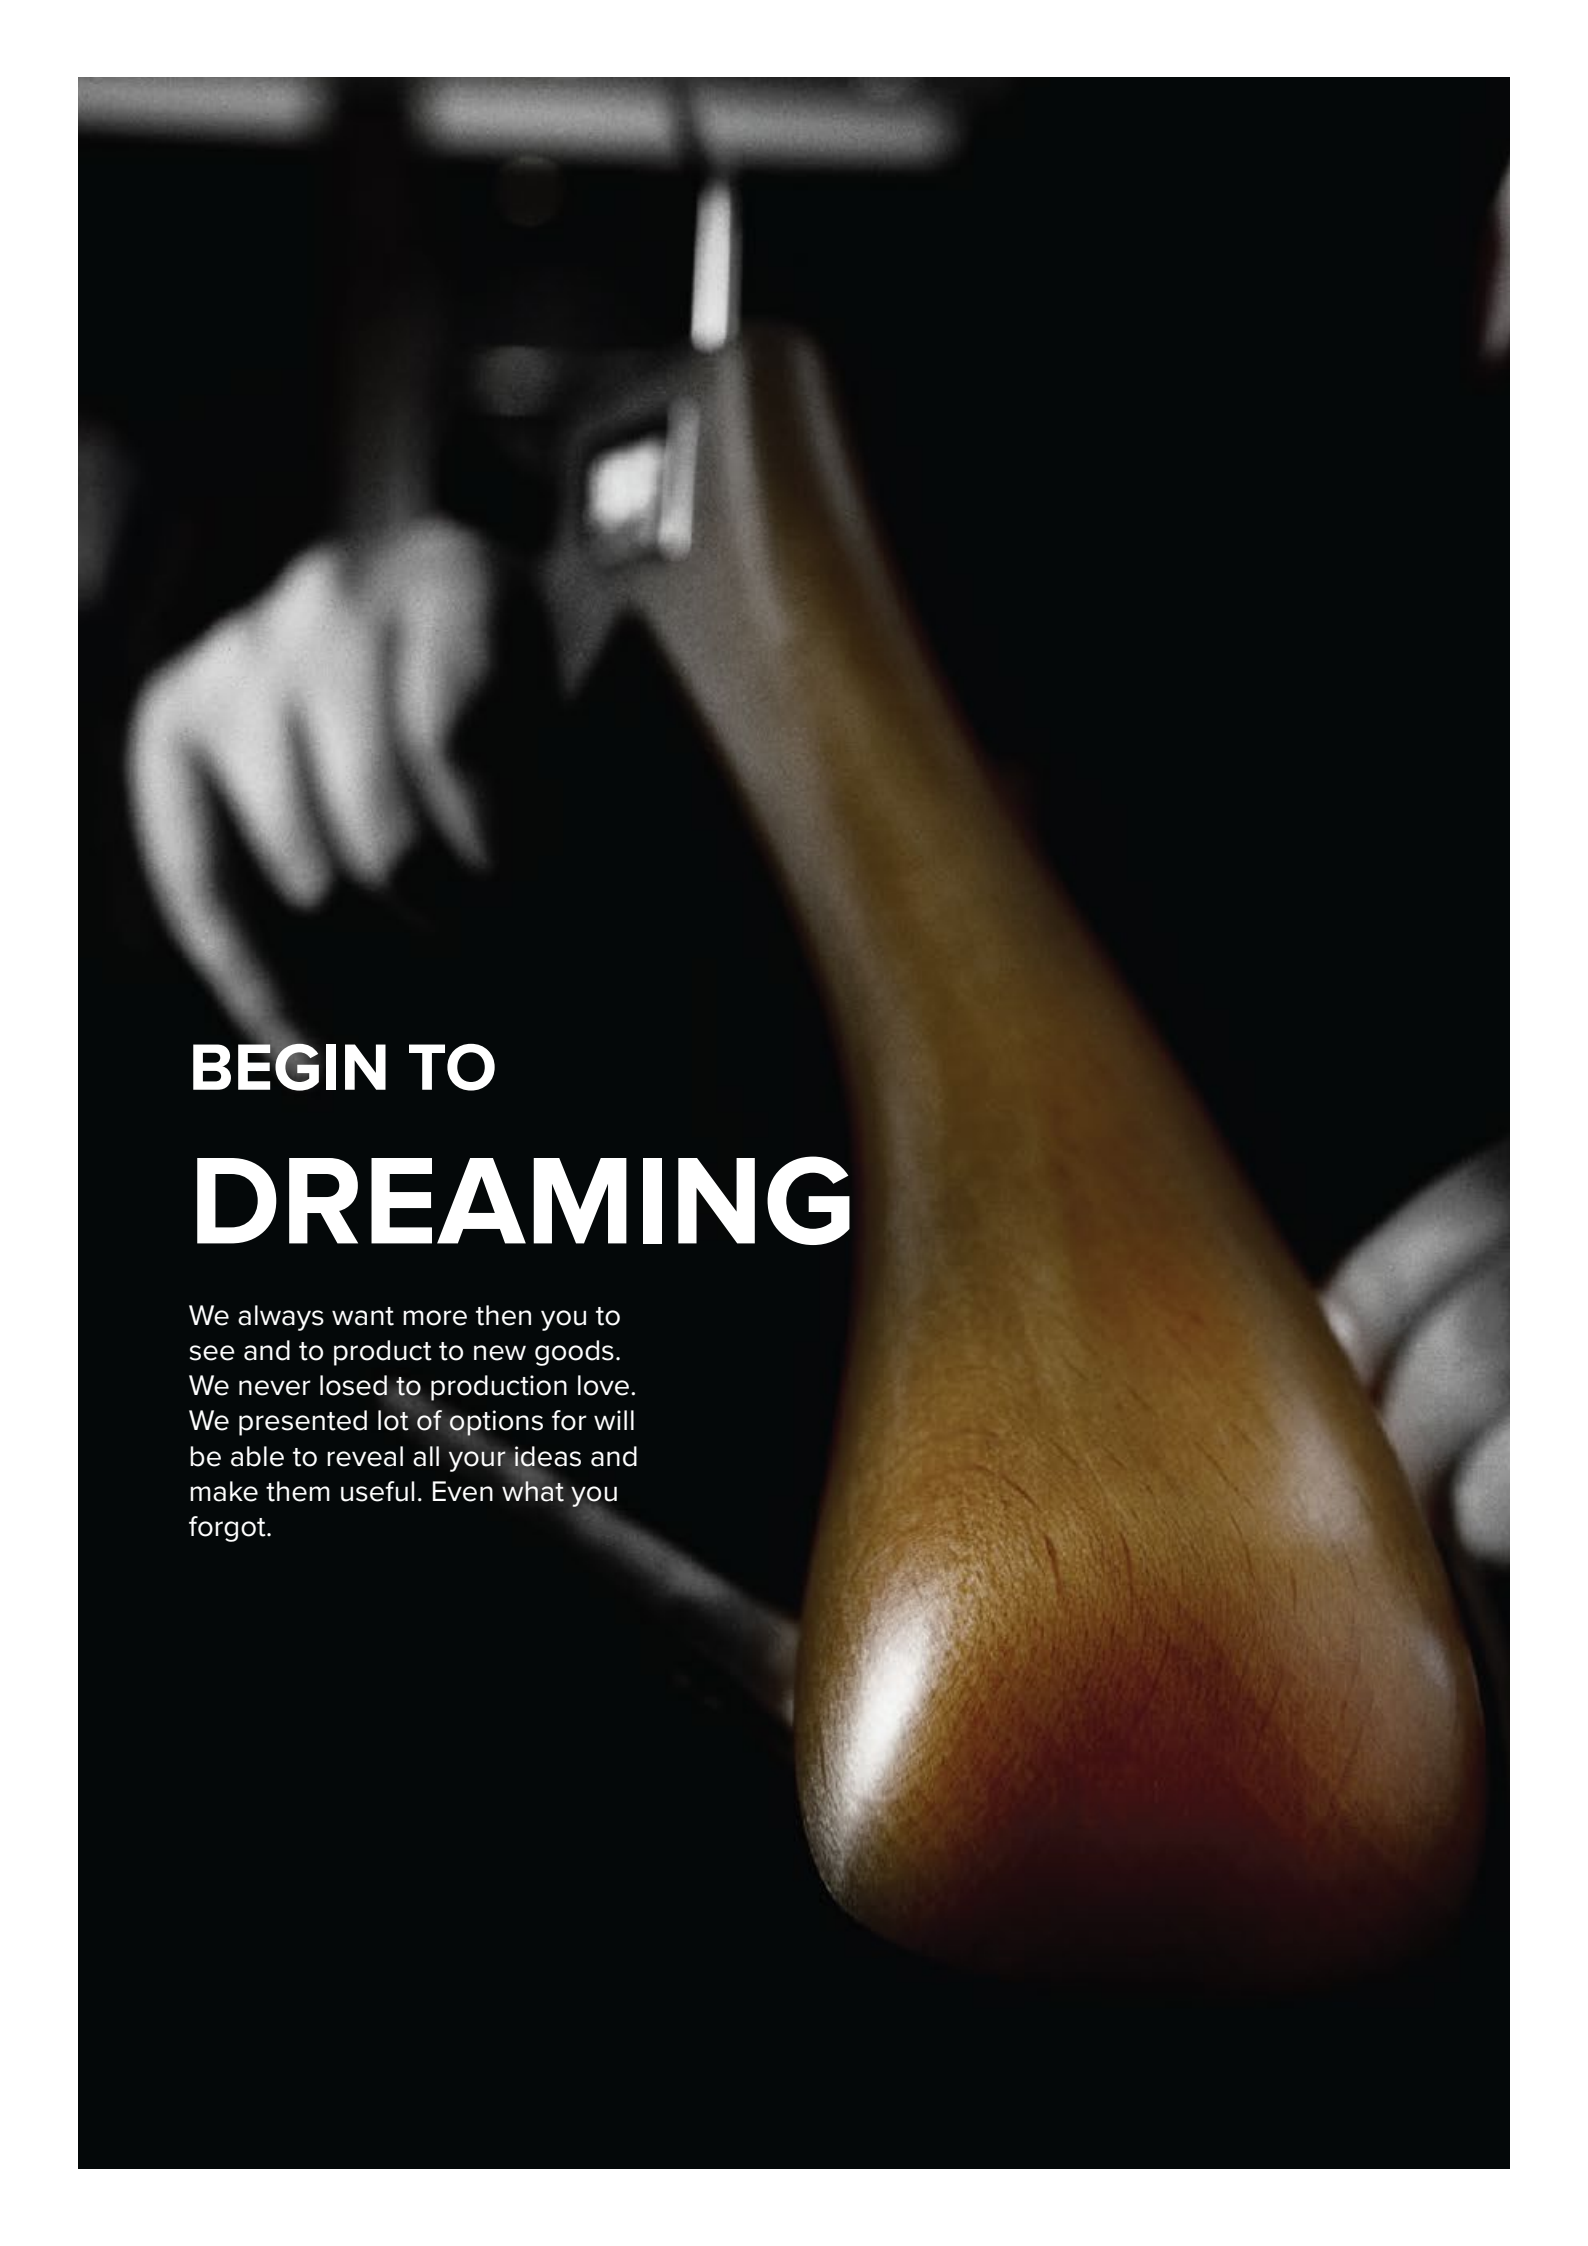

**WE HAVE PROGRESSED WITHOUT EVER FORGETTING
TO OUR JOB IS OUR SIGNATURE...**

We have progressed without ever forgetting and we produced. We have always protected our signature to be recognized by others and have not deviated from our quality line for a single day. Even after years, speaking good things about our products is the biggest gift from you.

What Are We Done For You

7500 m2 closed area and
with 25000m2 open area
We established a production
facility.
We have fully integrated this
facility
to maintain our quality, and
starting
with the drying of the timbers
We signed an adventure.
